Bids for Large Meter Testing

The City of Cumming is accepting bids for the calibration testing of all the large meters within our service system for the year of 2019. There is 80 large Neptune meters, consisting of 31 - 3 inch, 19 – 4 inch, 8 – 6 inch, and 22 – 8 inch to be tested.

These meters will have to be tested during the summer months when the Forsyth County Schools are closed for Summer Vacation. The ability to test and repair large meters is a must. All calibration equipment must be certified and up to date. Any meter repairs that need to be made must be discussed and approved before the repairs are made to said meters.

Referrals are required.

Any questions referring to the technical requirements for meter testing should be directed to:
Phil Harris – Technical Services Supervisor / 770-781-2025

Any bid proposal questions or requirements should be directed to:
Tim Day – Superintendent / 770-781-2035
