

STREET DEPARTMENT GUIDELINES

(Updated 5-9-22)

For Customers Inside the Cumming City Limits Only

1. The mission of the City of Cumming Street Department is to offer a free pickup service for yard debris, grass clippings, old furniture, appliances, carpet, and limited amounts of building materials.
2. Department pickup days are Monday and Wednesday.
3. The department **DOES NOT** pick up the following: Mattresses, tires, paint, or hazardous materials (items that qualify as “hazardous materials” are defined by the department).
4. Yard debris is limited to shrub pruning left at the curb, and grass clippings and leaves in yard bags. There is a 12-bag limit per pickup and each bag is not to exceed 40 pounds. Residents should never blow grass or leaves into water drainage gutters.
5. The department will no longer remove tree debris except for reasonable amounts of limbs. Any tree removed from a property will be the responsibility of the property owner and should be removed by a contractor or placed in a roll-off dumpster.
6. Trees or limbs downed by storms or ice, which are on the right-of-way, will continue to be removed by the department as usual.
7. Any material to be removed should be placed at the curb, **not against any fences**, in an orderly manner to reduce the amount of time necessary to load a truck. Such piles will be removed at the discretion of the department.
8. Absolutely no material of any type that has been brought into the City from other locations will be removed. Instances of this practice will be reported to Code Enforcement and violations may result in citations and fines by the Cumming Municipal Court.
9. Building material debris will be limited to three full wheel barrows. Any amount beyond the three full wheel barrow allotment should be placed in a private dumpster provided by the property owner or resident.
10. All appliances should be placed at the curb for pickup; freezers and refrigerators should be empty of food or any other debris.
11. Senior citizens and disabled individuals may request assistance in removing appliances after the appliances have been removed from inside the home.

For questions or special requests, please call **770-781-2019**. *(If no answer is received, please leave a message and staff will return the call as soon as possible.)*
