SECURITY CAMERA PROJECT 2022
CONTACT: TIM DAY 770-781-2035
tday@cummingutilities.com

The City of Cumming Department of Utilities, Distribution and Collection Division is seeking proposals for the installation of an Avigilon or Bosch security camera system. This system must have a server to collect all camera data and store the data for at a minimum 31 days.

Please see attached specification sheets for Avigilon cameras.

For questions or to schedule a tour of the buildings and site, please call Tim Day, Superintendent at the above telephone number or contact Mr. Day via email at the address listed above.

This proposal should include all cameras, wiring, and physical labor associated with the turn-key installation of the security camera system.

Must include pricing for a lift and other equipment necessary to accomplish the installation of the system.

Must include all training necessary to operate the system and staff must be able to review recorded video on demand and to be able to pull video and save it on a thumb drive or other recording device so that video can be shared with proper authorities when necessary.

Proposal must include an on-line phone/laptop/I-Pad app that provides real-time access to cameras.

Proposal Must include all parts and labor.

Must provide a service agreement option and a cost for this service annually.

Must provide a PARTS AND LABOR warranty of at least 12-months and provide an option for an extended warranty.

Site Address:

City of Cumming Department of Utilities
