Foresite Group Joins City Center

CUMMING, Ga. – The Cumming City Center welcomes Foresite Group to the family!

Foresite Group is an engineering firm that provides collaborative services to public and private sector clients nationwide. These services consist of land development, landscape architects, MEP & Fire Safety, structural engineering, traffic engineering, broadband engineering and wireless engineering. "We are truly a one-stop shop engineering and design firm," said Bill Sloan VP of Operations. The Cumming City center will be home to the firm's new satellite office while headquarters will remain in Peachtree Corners. Shout out to the Foresite team for being a fundamental part of the Cumming City Center's design and construction!

Be sure to follow Foresite Group on Instagram @foresitegroup.
